TANA District II Report

October 12, 2026

District II Updates

District II leadership continues to focus on keeping members connected and encouraging involvement throughout West Tennessee. Discussions are ongoing with potential sponsors about hosting a District II dinner meeting later this fall or winter. Once a sponsor and date are confirmed, additional details will be shared with members via our communication email and Facebook page.

Honoring Bob Silvia

District II leadership and members have been looking for meaningful ways to honor Bob Silvia's legacy and his contributions to the nurse anesthesia profession. Efforts have included promoting the scholarship fund established in his name at Union University and nominating Bob for the 2026 Patty Cornwell Practitioner of the Year Award.

Mentorship and Member Involvement

District II has also encouraged participation in the new TANA Ascend Mentorship Program and in TANA-PAC.

Looking Ahead

District II leadership aims to continue exploring ways to bring members together, increase participation, and encourage involvement in TANA. Strengthening communication and creating opportunities for members to connect remain priorities moving forward.

Respectfully submitted,

Meagan Seratt, DNP, APRN, CRNA
TANA District II Director

TANA District 3 Report

There are no changes or new updates to report for District 3 at this time.

Thanks,
Bradley Steg
District 3 Director

TANA District IV Report- October 2026

It has been pretty quiet in District IV. I do believe salaries are becoming more equitable in the area. I just got an email from NAPA in Chattanooga, and it was fairly competitive for the area. It's amazing all these dollars have been floating around all along and suddenly they're available when they have to have CRNAs to maintain workflow. COVID and locums have upended the old pay structures & work models.

John C Asbury, MSN, CRNA, APRN
District IV Director

District V Report
October 2026

Leadership Update
Steven Moon reelected as district director for the years 2027-2029

Member Engagement
District V continues to demonstrate strong member engagement and interest in regional events. We have seen encouraging participation from CRNAs across the Knoxville and surrounding East Tennessee areas, particularly in response to upcoming educational opportunities and networking events.

Educational Events
District V had an education dinner on September 9th sponsored by Vertex Therapeutics at Flemings Steakhouse in Knoxville that was well attended by district members.

This level of response highlights the continued demand for in-person educational and networking opportunities among CRNAs in the district.

More events to be planned in the future

Closing
I look forward to continuing to build momentum within District V and strengthening engagement with CRNAs throughout East Tennessee. I appreciate the support of the Board and welcome any feedback or suggestions for additional ways to support our members.

Submitted **October 12th, 2026**,

Dr. Steven Moon, DNP, CRNA, APRN

District V Director

District VI Report

No major changes or concerns have been reported in the district.

Plans for district meetings:

I plan to develop a more formalized approach to communicating with CRNAs in Northeast Tennessee.

Working with Tyler McGinnis to arrange a district meeting on either November 12 or 19, depending on the speaker's availability.

Planning a spring meeting featuring a hands-on POCUS workshop. We hope to offer continuing education credit, possibly in collaboration with Virginia Commonwealth University.
